

Issues in Economics Today, 2004, 448 pages, Robert Guell, 0072871873, 9780072871876, McGraw-Hill Companies, Incorporated, 2004

Robert Guell's Issues in Economics Today, 2e employs a unique format that allows instructors and students the flexibility to choose which issues they wish to cover in their one-semester survey course. The book begins with eight intensive core theory chapters followed by thirty shorter issues chapters that can be easily mixed and matched to create a customized course syllabus. Two additional issues chapters can be found on the book's website. In the preface, the author provides a list of suggested issues to cover in a course with specific themes, such as social policy, international issues, or business. For those instructors who want to do it themselves, the author has also included a grid that shows which theory chapters need to be mastered before moving on to each issue. Instructors and students alike will appreciate the solid theoretical foundation as well as the intriguing and timely economic issues explored in the book, such as sports, education, and crime.
